

PRIYANKA K E

Experience

Full Stack Development, Jobsy

[July 2021-Present]

Built a functional real-time messaging application using HTML, CSS and JavaScript

The application allows users to chat with peers and friends, similar to WhatsApp

Providing users with rich features, the app delivers seamless live chat experience, allowing users to share text messages, images, emoticons, stickers, audio and video clips and other media content

Intern, PVH Solutions

[Feb 2020-Dec 2020]

- * Performed basic product design modifications and developed basic web pages using Web Development as main domain.
- * Performed engineering change processes as necessary to support existing products Created and using web development.
